

TRONIA SYSTEMS LIMITED

agrēGrain
Advanced
Technology for
Crop Inputs &
Grain Terminals

anytime, anywhere

More Solutions by Tronia Systems

- **Hosted Solution** - access your data anytime, anywhere
- **Automated Scale Integration** - communicate directly with automated scales
- **eSignature/eConfirmation** - paperless approvals for no-contact authorization
- **Grower Central** - provide flexible, secure data access to your producers & buyers
- **Agronomy** - merging science with technology

agrēGrain

agrēGrain - the newest addition to the Tronia Systems software lineup is designed from the ground up **specifically for Grain Terminals**.

agrēGrain allows you to track the **Purchase** and **Sale** of grain directly in your agrē Solution. From entering producer Purchase Contacts, Receipts, and Settlements to preparing Sales Contracts and collecting Payments from your buyers, **agrēGrain** makes it easy. Add in the ease of integrated scale tickets and **agrēGrain** can do it all, using the same advanced platform that runs your agrē Solution today.

Sell both Grain *and* Crop Inputs? No problem! You can have a single, powerful, fully integrated solution that can manage your entire business using an application that is known and trusted.

Completely scalable to your business needs.

Let us show you how agrēGrain will change the way you do grain!
