

TKXS Partnership with GOWAN for Product Reporting

Summary

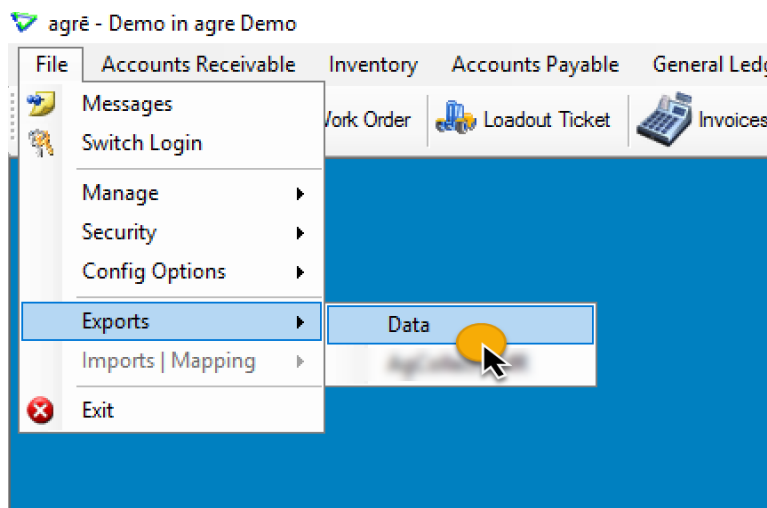

TKXS formally took over data collection on behalf of **GOWAN CANADA** for grower orders and sales as of **January 1ST, 2025**. In order to properly capture GOWAN grower data for the complete 2024 crop year, TKXS will require all participating retails to prepare a **manual** export from agrē to 'backload' any eligible transactions for GOWAN related sales beginning **July 1st – December 31st, 2024**.

All retails are to submit the manual **Manufacturer Sales/Orders Export (TKXS)** in order to have a complete transaction history for each grower partner. Below are the steps to generate the TKXS export, to be submitted to TKXS before **March 7th, 2025**. This also includes those retails who are currently subscribed to daily automated TKXS export submissions by Tronia Systems.

To prepare the manual TKXS Manufacturer Export from agrē, please complete the following steps:
